## Medical Policy

### Medical Technology Assessment Investigational (Non-Covered) Services List

The services listed below are considered investigational (non-covered) because they do not meet the Blue Cross Blue Shield Medical Technology Assessment Guidelines. The five criteria that make up the guidelines appear on Medical Policy #350.

**Medical Policy #400, Medical Technology Assessment Investigational (Non-Covered) Services List includes entries only for non-covered services that do not have an associated BCBSMA medical policy.** The most accurate way of determining whether a service is covered or not covered is to perform a keyword or a procedure code search on our medical policy page online.

<https://www.bluecrossma.org/medical-policies/>

All coverage is based on a member’s plan documents (subscriber certificate, evidence of coverage). If there is a difference between the coverage in this policy and a member’s documents, the plan documents will be used to determine coverage.

#### Category III CPT Codes

**ALL** category III CPT Codes are **non-covered** unless they are explicitly described as “medically necessary” in a BCBSMA medical policy. To search for a particular code, click the following link: <https://www.bluecrossma.org/medical-policies/> and type the code in the search box on the page. Consult the coverage statement of any associated medical policy.

***If there is no associated policy, the code is non-covered.***
